

API	METHOD	USE	URL
1. USER			
add/user	POST	write user's data on DLT	http://18.217.132.185:3001/api/dataManager/add/user
update/userData	POST	update user's data on DLT	http://18.217.132.185:3001/api/dataManager/update/userData
map/userAddress	POST	map user's wallet address to user data on DLT	http://18.217.132.185:3001/api/dataManager/map/userAddress
generate/userAddress	POST	generate new wallet address for user	http://18.217.132.185:3001/api/dataManager/generate/userAddress
get/userData	POST	fetch user's data from DLT	http://18.217.132.185:3001/api/dataManager/get/userData
get/userAddress	POST	fetch user's wallet address from DLT	http://18.217.132.185:3001/api/dataManager/get/userAddress
get/userWalletBalance	POST	fetch user's wallet balance from DLT	http://18.217.132.185:3001/api/dataManager/get/userWalletBalance
get/userTotalTransfers	POST	fetch user's transfers count	http://18.217.132.185:3001/api/dataManager/get/userTotalTransfers
sendTokens	POST	transfer tokens from one address to other	http://18.217.132.185:3001/api/dataManager/sendTokens
2. ADMIN			
approve/withdrawOrder	POST	Approves withdraw order created by user	http://18.217.132.185:3001/api/dataManager/approve/withdrawOrder

approve/buyOrder	POST	Approves buy order created by user	http://18.217.132.185:3001/api/dataManager/approve/buyOrder
3. TOKEN SUPPLY			
set/totalSupply	POST	set initial value for total supply of tokens	http://18.217.132.185:3001/api/dataManager/set/totalSupply
increase/totalSupply	POST	Increase remaining total token supply	http://18.217.132.185:3001/api/dataManager/increase/totalSupply
decrease/totalSupply	POST	Decrease remaining total token supply	http://18.217.132.185:3001/api/dataManager/decrease/totalSupply
get/remainingSupply	GET	fetch remaining value of token supply	http://18.217.132.185:3001/api/dataManager/get/remainingSupply
get/totalTokensSold	GET	Display total tokens sold till time	http://18.217.132.185:3001/api/dataManager/get/totalTokensSold
get/lifetimeTotalSupply	GET	display lifetime token total supply	http://18.217.132.185:3001/api/dataManager/get/lifetimeTotalSupply
4. EVENT LOGS			
get/userLogs	GET	fetch user logs from DLT	http://18.217.132.185:3001/api/dataManager/get/userLogs
get/buyAndWithdrawLogs	GET	fetch token buy and withdraw logs from DLT	http://18.217.132.185:3001/api/dataManager/get/buyAndWithdrawLogs
get/transferLogs	GET	fetch token transfer logs from DLT	http://18.217.132.185:3001/api/dataManager/get/transferLogs
7. TRANSACTIONS			

getTransactionDetails	POST	Get transaction's details from the DLT using transaction hash	http://18.217.132.185:3001/api/dataManager/get/transactionDetails
